

# Release Notes for Recovery Series and Unitrends Backup - Legacy Interface

Release 9.1 | Document Version 1.12062016

This document describes issues resolved in the 9.1 release for the legacy User Interface (UI). If you are using the current UI, see the [Release Notes for Recovery Series and Unitrends Backup](#) instead. For details about each resolved issue, see the [Customer Resolved Defects](#) KB article. For complete upgrade instructions and considerations, see the [Upgrade Guide for Recovery Series and Unitrends Backup - Legacy Interface](#).

The 9.1 release resolves issues with:

- Appliance updates
- File-level backups
- VMware backups
- NDMP backups
- Oracle on Linux backups
- SQL backups
- Synthetic backups
- System metadata backups
- Archive restore
- VM file restore
- XenServer virtual machine restore
- Windows Instant Recovery
- VMware Instant Recovery
- NAS storage
